

# Polyken 335FT High Temperature Flue Tape

## Product Information Sheet

---

### SKU/Product ID/Reference

---

335FT

---

### Product Description

---

High Temperature Flue Tape for HVAC

## Features and Benefits

- 1.75 mil Foil Backing
  - Excellent conformability
  - Resists UV, MOLD, and MOISTURE
- Extreme Temperature Acrylic Adhesive
  - Specially formulated for high temperature performance
  - Withstands very cold and very hot application and operating conditions.
  - Excellent quick stick for an instant seal
  - Low odor
- Low VOC Content
  - Can contribute toward satisfying EQ Credit 4.1 (Low Emitting Materials) under LEED®

## Regions Available

Global

## Product Information

Adhesive Type	Acrylic
Carrier / Support / Facestock	Foil
Gauge / Mil	3.8 mil
Liner Type	Paper
Operating Temp Range	-50 to 500 °F
Performance Category / Characteristics	
Color(s)	Custom Color
Custom color(s)	Aluminum
Product Construction	Single-Coated Tape
